 - f. In the event that only one member of a Team Roping Team enters, not both members, the team will not be included in the Draw and the one team member that paid will be refunded.
2. **Late Entries:** No one can enter after entries are closed. Exception: when an event is not filled the stock contractor can make the decision to take late entries, (filling to 12 in each event) pending on stock availability. Any late entrants (in unfilled events) will have to enter online by 11:59 PM the Tuesday before the first performance. At which time they will be assessed an additional \$25.00 late fee, entry fees must be paid at the time of late entry online with a Debit/Credit card.
 - a. All late entries will be first out in timed events, last out in barrel race.
 - b. \$250.00 fine to the stock contractor if they take over 12 in an event including late entries.
 - c. Late entries CANNOT be taken if there is slack in that event.
 - d. Members cannot draw out or turn out of a rodeo and enter again as a late entry.
 - e. No late entries at the Finals, no exceptions.
3. **Team Roping Go Twice:** If a Team Roping Contestant is entered twice in the team roping they are NOT guaranteed to be: Up in the same performance with both runs; In the same performance as their buddy group; Or in the same performance as another event, if they are entered in multiple events.
 - a. If you get entered three times you will be entered with the last two that entered you.
4. **Performance Set-Up:** If stock contractors do not contact the Entry Office before 10:00 a.m. the day after entries, we have the right to draw the rodeo, and it will stand as is.
5. **Entering a Rodeo with Limits:** In order for a rodeo to be sanctioned and points to count, in taking entries in limited events, entries will be drawn. A contestant will be refunded if not drawn in the rodeo.

BUDDY GROUPS

1. **Advantage:** Gives you someone to travel with.
 - a. Up to a four-person buddy group is allowed.
 - b. You will be up the same day.
 - c. One day rodeo contestants will be able to buddy; unless the event is limited.
2. **Disadvantage:** The more in your buddy group, the more entries or spots that have to be open for you to fit. Preferences may be split. This may keep you from getting your first preference as often as a single entry does.
3. **Eligibility:** For a Buddy Group to be considered eligible, each person in the Buddy Group must list all members in the Buddy Group on their entry form.
4. Timed Event Contestants cannot buddy with Rough Stock Contestants unless the contestants are married.
5. **Team Roping Go Twice:** If a Team Roping Contestant is entered twice in the team roping they are NOT guaranteed to be: Up in the same performance with both runs; In the same performance as their buddy group; Or in the same performance as another event, if they are entered in multiple events.
6. **Priority:** Your draw priority is based on the lowest priority in your buddy group. If you have two card members and one permit, your priority will be dropped down.

PRIORITY RANDOM DRAW

1. In order to get more contestants to more rodeos in a given week, we use a priority system. The system is simple, and it works like this:
 - a. FIRST, you and your buddies must be a member of the CCPRA to be in the highest priority group.
 - b. SECOND, the more rodeos you go to in a given week, the higher your priority is. Sample: four rodeos in a week, enter all 4= "A" priority, 3= "B" priority, 2= "C" priority, 1= "D" priority.
 - c. After the priority has been assigned, the random draw takes place. This is done group by group starting with "A" priority. Remember, larger buddy groups, it takes more slots for you to fit when you are drawn. Sample: a buddy group with multi eventers, 1 team, 2 calf ropers, 2 steer wrestlers, 1 barrel racer, 1 breakaway- 7 slots have to be open at all rodeos for you to get your preference (up to FOUR members per buddy group). If every slot fits except one, your whole buddy group is blocked - you will probably be moved to where you will fit. Because you are a buddy group - needing lots of slots, a lower priority might get SOME of the slots you wanted. When your name or buddy group pops up and your first preference is open, it will place you there. If not, it looks for your second preference and places you - if not, it will place you where you will fit.

- d. Draw for priority position - first to come out in the draw will be in the following order: Saddle Bronc, Bareback, Bull Riding, Steer Wrestling, Calf Roping, Breakaway, Barrel Racing, and Team Roping.
2. **Competition Order:** Competition order will be re-drawn.

PERFORMANCE PREFERENCES

1. **“Or Out”:** You are allowed to give two preferences plus you may use the out parameter. IMPORTANT! If you use the out, MEAN IT – you are saying you can’t be there at a certain time. When you are drawn, if the only place you will fit is where you said OUT, YOU WILL BE OUT, and your payment card will be refunded. This is done before any trade takes place because it is not fair to trade someone because you used the OUT. DON’T TRY TO GET WHAT YOU WANT BY USING THE OUT, IT DOESN’T WORK. Rather than using the out, make trades.
2. When giving preferences, make sure you’re not asking for a non-drivable combination. The program WILL GIVE you first preference if not blocked at one of the rodeos. If blocked, it WILL GIVE you your second preference all the way through. If that is blocked it will place you where you will fit.

YOUR RESPONSIBILITIES WHEN ENTERING

1. An email confirmation will be sent to the email listed on the entry form.
2. At the end of an entry, it is your responsibility to make sure the email confirmation is correct. If it is not, contact the CCPRA Office prior to the entry closing date or the books stand correct.
3. Give the correct card number for anyone you are entering.
4. If you have a problem with the draw, we will investigate it. Every draw is checked for errors.

3. Non-notified turn outs will not be filled in any event.

TRADES

1. Trades are made with the Rodeo Secretary. The trades will be made position for position. Both parties MUST contact the Rodeo Secretary to confirm a trade. Trade deadline is 24 hours before slack or performance, whatever is first.

2. Rodeo Secretaries may trade a contestant into an open position created by a turn out or draw out, provided this is done prior to the stock draw. A trade to an open position which would move a contestant from a performance to a section of slack will not be allowed, nor will a trade to an open position within the same performance or section of slack be allowed.

If either of the new team members' partner is a notified turn-out, a notified doctor release, or a notified visible injury or illness, then the new team members must notify the rodeo secretary that they will compete as a team prior to the stock draw for competition of the first original team. If neither of the new team members' partners is a notified turn out/doctor release, visible injury or illness, then the new team members must notify the rodeo secretary that they will compete as a team prior to the time of competition in that rodeo of the first original team.

If the secretary is not notified, the contestant will be subject to entry fee payment, will be disqualified from the team roping for that rodeo, and no cattle will be drawn.
 - c. **Failure of a Partner to Notify of a Turn Out:** If a team roper's partner fails to notify the proper officials of a turn out, and does not appear prior to first go-round competition, the individual entered with him may obtain another partner from among any CCPRA event contestants entered at the rodeo, except team ropers already scheduled to compete in the event, or he may draw out provided he is present at the rodeo and the draw out is approved by the judges of that rodeo.
 - d. **Responsibility of Replacement Team Roper for Entry Fees:** If an alternate team roping contestant is replacing a partner who has turned out (either notified or non-notified), that replacement will not be required to pay entry fees.  - e. **Replacement of Team Roper in Second or Sub-Sequent Go-Rounds:** If a team roper's partner is unable to compete in the second or subsequent go-round due to a visible injury or doctor release, the remaining partner may obtain a replacement partner among those contestants entered in that rodeo who are not already entered in the team roping, provided that the originally-entered team competed in the first go-round. This newly established team will not be eligible

for the average payoff. Any money won in a go-round by the newly established team will not count as Championship Point. They will not be eligible for any All-Around awards, or sponsor bonuses. 3. At a sanctioned CCPRA rodeo, an electric eye is mandatory. Stock contractor is fined \$100 dollars, doubled after. A three-minute time limit will be given for electric eye setup. If the eye is not functional in that time, backup flag will be used.
4. Equipment necessary: complete electric eye timer plus one extra timing clock or stopwatch to be operated manually.
5. If electric eye is used, backup flagger must stand behind eye, and timer is to be in usual position in timing stand. One timer will record the time (including hundredths) that appears on the electric eye controlled readout. The second timer will operate the backup manual clock or stopwatch and will record the time which is show thereon. She will operate from the flagman's signals and record the time on the watch. If malfunction occurs with the eye, girl is to be given time on hand watch. If hand watch time is used, then time will go to the tenths with no hundredths used. Both timers must be responsible for writing down times on a time sheet, anytime hand watches are used. If the electric eye fails to work for more than one half of the contestants who competed in an entire go round (includes performances and slacks), the backup (manual) recorded time will be the official time for all contestants in that go round. Time limit for adjusting eye will be at judge's discretion.
6. Permanent markers should be put in the ground for the electric timer. Electric timers should be placed on the score line no closer than the width of the first two barrels for the electric eye to be centered in each performance. Person setting up timer should stand back at least 6 feet from the timer unless a mechanical failure occurs.

BARREL RACING GROUND CONDITIONS

1. If ground conditions are found to be unsafe for competition due to a MAN-MADE error or omission, that section of the performance or slack shall be stopped, as to protect the rider and horse. If Ground Conditions are considered to be inadequate at the discretion of the judge and director, judge and contractor, director and contractor, or any combination thereof, then the contestant will be given the option to turnout without a fine or run at her own risk.
2. In the event that a serious ground deficiency occurs, that section or sections that compete on the less favorable ground shall be considered a separate barrel race and added money shall be divided accordingly.
3. Due to an abbreviated barrel race caused by defective ground condition, only four monies shall be paid to each section that competes.

4. In case of an extreme ground condition change that was MAN MADE, a formal complaint must be submitted to a judge/director BEFORE the second round of competition begins.
5. If ground conditions are such that a rerun would be granted, barrel race should be stopped and all contestants in that section granted a rerun when ground conditions are corrected. Each contestant shall have the option to rerun or keep her recorded time. The section will run in the order originally drawn.

BARREL RACING GROUND PREPERATIONS

1. The committee is required to prepare ground in the arena to be consistent throughout the event.
2. Ground must be worked halfway through the performance. Turn outs and releases will be included in the count.
 - a. If there are 12 contestants to run during a perf, the ground must be worked after 6.
 - b. If there are 13 or 14 contestants to run during a perf, the ground will be worked after 7;
 - c. If there are 15 or 16 contestants to run during a perf the ground will be worked after 8, etc.,
3. In slack, ground throughout the barrel pattern must be worked with a tractor immediately before the barrel race and dragged after the equivalent number of contestants drawn for a performance.
4. The ground in slack will be dragged after the equivalent number of contestants drawn for a performance and will be dragged in the same position (between the same two contestants) when the second go starts in slack or the list is reversed for back to back runs in slack, perf, or approved competition. Turn outs or releases will be included in the count.
5. When there is no rodeo performance to use as a guideline, the ground around the barrels shall be worked immediately before the barrel race and after not more than 12 contestants have run.
6. If slack is run before first perf of rodeo, it is mandatory to work and water the ground the same as will be done for the perf.

BARREL RACING VET RELEASES

1. Barrel Racers will be allowed two vet outs per year either as a visual vet out or with a vet's note. When vetting out Barrel racer cannot compete for ten days- Contestants cannot enter on another horse, they must sit out ten days from rodeo they vetted out at.

THE CLOVER LEAF PATTERN

STANDARD DISTANCE

PLEASE NOTE: Course should be set up allowing as much room as possible from gate to starting line.

1. Standard maximum distance is 30 yards (90 feet) between barrels one and two, and 35 yards (105 feet) to the end barrel. The standard barrel race course shall be used and barrel set square with arena unless arena size and conditions i.e. wet or slippery areas, prevent the placement of exact course. The distance between the barrels may be shortened but all barrels when set on inside of rope marker must have the markers 17 feet from the fence. The third barrel shall be no closer than 35 feet from the fence for the standard course and no closer than 25 feet from fence for a shorter course.
2. The starting line for all barrel races must be 20 yards, whenever possible, from barrels one and two. It should be 15 yards from the chute or fence. If under this, an opening must be provided for the girls to run home into and kept clear. Gate cannot be closed unless girl requests it.
3. When rodeo has non-pro, jr. barrel race or a queen contest that uses the clover leaf pattern, barrels must be set on different set of markers.
4. An additional event requiring the use of a barrel, barrels must not be put on CCPRA barrel markers.
5. Markers should be buried at the location of each barrel, so the barrels will be in the same place during each complete go-round.
6. When marking barrels, a steel tape should be used. It is not recommended to use rope for measuring as it can stretch or shrink. A steel stake, or something of that caliber, should be pounded into the ground. Barrels are to be marked one hour before performance, with the stipulations that the Stock Contractor has provided the equipment. Failure to have barrels marked at this time may result in fine.
7. Ground conditions will be considered in setting up the barrel pattern.
